

About me

A web developer who works with both the front and back ends of an application. Capable of providing end-to-end service, and can be involved in projects that require working with APIs and databases as well as building user-friendly interfaces.

Mateusz Martyna

Web Developer

Education

(2021 - 2024)

MILITARY UNIVERSITY OF TECHNOLOGY IN WARSAW

Bachelor of Computer Science

Experience

(2022 - now)

SKILL AND CHILL

Reactive Web Developer

- Developing an enterprise system for a banking industry using OutSystems - a low-code programming environment
- Design and development of Restful APIs and Microservices used to integrate with JIRA
- Designing and building user-friendly interfaces
- Creating optimized business methods and reusable algorithmes to use across the system

Projects

WOLFGEEKMARKT

A fullstack NextJS application - a digital marketplace where users can not only buy digital items, but also sell them using a seller dashboard.

GITHUB USERS EXPLORER

An application that provides analytical data about Github users with the usage of Github API.

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
